**NO DRIVING FOR 24 HOURS FOLLOWING SURGERY
(FOR PATIENTS RECEIVING IV SEDATION / VALIUM / NITROUS OXIDE)**

I have been instructed by Beacon Women's Center not to drive for twenty four (24) hours following my surgery because of the IV Sedation/ Valium/ Nitrous Oxide used during my surgery. I completely understand that the anesthesia used during my surgery may make me very drowsy and mentally impaired temporarily. Furthermore, I do understand that driving while under the influence of anesthesia can present a safety hazard to others and myself.

I, _____, have read and understand the ***no driving for 24 hours instructions*** given to me by Beacon Women's Center and **I will comply.**
